What is CPA Marketing and What Are Different Types of CPA Offers

What Is CPA Marketing?

CPA stands for **COST PER ACTION.** As name suggest CPA is a form of marketing where you will be paying a commission when someone from your traffic do a certain task which your publisher assign to you like, toolbar, or any other small task.

Type of CPA Offers That Works Best With This Method

Email Submit

The simplest and most widely use CPA offer is email submit offer. In these types of offers you will get paid once someone from your traffic submit his email to an email submit form.

Because this is the simplest form of offer and its convert very well so payout on these types of offers are usually on the lower side. Typically you will get a commission of around $1 to $3 per successful email submit from your traffic.

Zip Submit

The second and most common type of offers are zip submit offers. In these types of offers you will get paid a commission when someone from your traffic will submit his or her zip code. Again these are simple type of offers so payouts are low. But since these types of offers convert high so people love these types of offers.

Mobile App

Since its mobile era and Google play store is now in people's pocket. These types of offers convert very well. In these types of offers you are going to promote mobiles apps. And once people install these apps on their mobiles you will get your commissions. The payouts in these types of offers are anywhere between $0.50 to $2. Again its mobile era so these offers are best in the market right now.

Free Trials

These are high paid offers. But conversion on these types of offers are not very high but paid out are usually very high so marketers loves these type of offers. The conversion point on these types of offers are when someone order a free trail of a product and enter his credit card information to pay his free trail shipping fee. The typical commissions on these types of offers are between $32 to $45.

How to Get Accepted Into CPA Networks

Act like A Smart Guy

Let's face it. Getting accepted into CPA networks is the hardest thing for most of the newbies in this CPA business. Because CPA networks try to play safe as there are lot of frauds that happens online in terms of fake leads and transactions. The more quality traffic these CPA networks send to the advertisers makes the advertisers happy, they make money, and then they send CPA networks their commissions and these CPA networks pay you your commissions.

So we need to play some smart moves to get accepted into CPA networks.

Second Tier Networks

If you're new into this CPA game and you never accepted into a CPA network then what I suggest to you is always go and first try to get approve into small CPA networks. And the reason is all CPA networks ask 1 common question when your joining them. What other CPA networks you work with? People reply none and CPA networks denied there applications. Once you get accepted into 1 or

Copyright © Tube CPA Loophole. All Rights Reserved.

2 small CPA networks then approach to big networks and your chances to get approve into networks increase.

Email@yourSite.com

This is very important you should register a domain name with your own name. Like I have a domain name “marketingwithalim.com” this shows you’re a professional guy and working in internet industry.

Always use your domain name email while applying into CPA networks. Like I use the following email address when I apply to any of CPA networks

Support@marketingwithalim.com

Call Your CPA Account Manager

Another tip while applying to CPA networks which increase your chance to get accepted into CPA networks is once you finished your application process you should call your affiliate manager and talk with him. The only thing which most of the CPA managers are looking to know is how you promote their offers. So you should have a complete pin point plan ready which you will explain your affiliate managers on the call. (Don’t worry in the next section I will give you answer of some of the common question which your affiliate manager will ask from you)

Be Confident

Copyright © Tube CPA Loophole. All Rights Reserved.

When you will be talking with your affiliate manager be sure you're confident and already prepared about the question your affiliate manager will ask to you. So it is important that you're well prepared before your call. One of the purposes of phone verification is because most of scammers are not willing to give their phone number. So they just want to check either you are a genuine affiliate or not. And second purpose of call is just to ask you your driving source.

Important Question which CPA networks Ask

Now let's discuss some common question and their which your CPA networks ask from you

Q 1) How long you have been working in Internet Marketing?

A) I have been working in internet marketing for about 8 months now. And I have seen some success using FB and Bings as my traffic sources.

Q 2) what is your website Landing Page Url? Or Show me you're landing page

A) I mainly use the bing ads to drive traffic to CPA Offers and I mostly use direct linking mechanism.

Q 3) what is the volume of your daily traffic?

A) Currently I am spending $50 to my traffic. As I told you I mostly Use bing ads and FB ads to drive traffic so he volume of traffic entirely depend on offers. And keywords belong to that offers.

Q 4) what is your monthly traffic volume?

Copyright © Tube CPA Loophole. All Rights Reserved.

A) As I told you my entirely traffic is depend on the PPC campaign. So it's hard to tell you exact volume of traffic. But I target long tail keywords so my traffic conversion ratio is very good.

Q 5) how did you plan to generate traffic to our offers?

A) I only use PPC traffic and my favorite traffic sources are FB and Bing Ads.

Q 6) What Kind of Offers You Like To Promote?

A) I am interesting in Weight loss and Fitness relating offers

Q 7) How did you heard about us?

A) http://www.offervault.com

These are 7 most common questions which almost every CPA network will ask from you. So it's advisable that you are already prepared for these questions to improve your chances to getting into any CPA network.

Tip: - Alright guy here is my little advice which will help you to get accepted into CPA networks very easily. Never file your applications to Top Tier Networks. Always Try To File Your Applications to second and third tier networks.

Module No 3

Offer Selection

Ok dear friends as we are going to apply a very unique traffic method to drive highly targeted traffic to our CPA offers. Let me tell you very clearly this type of traffic does not work for Mobile app installation offers. So it's very important that you select the right offer to market.

Let's get to the point. We need an offer to send traffic to that offer. For searching quality offer we will go to

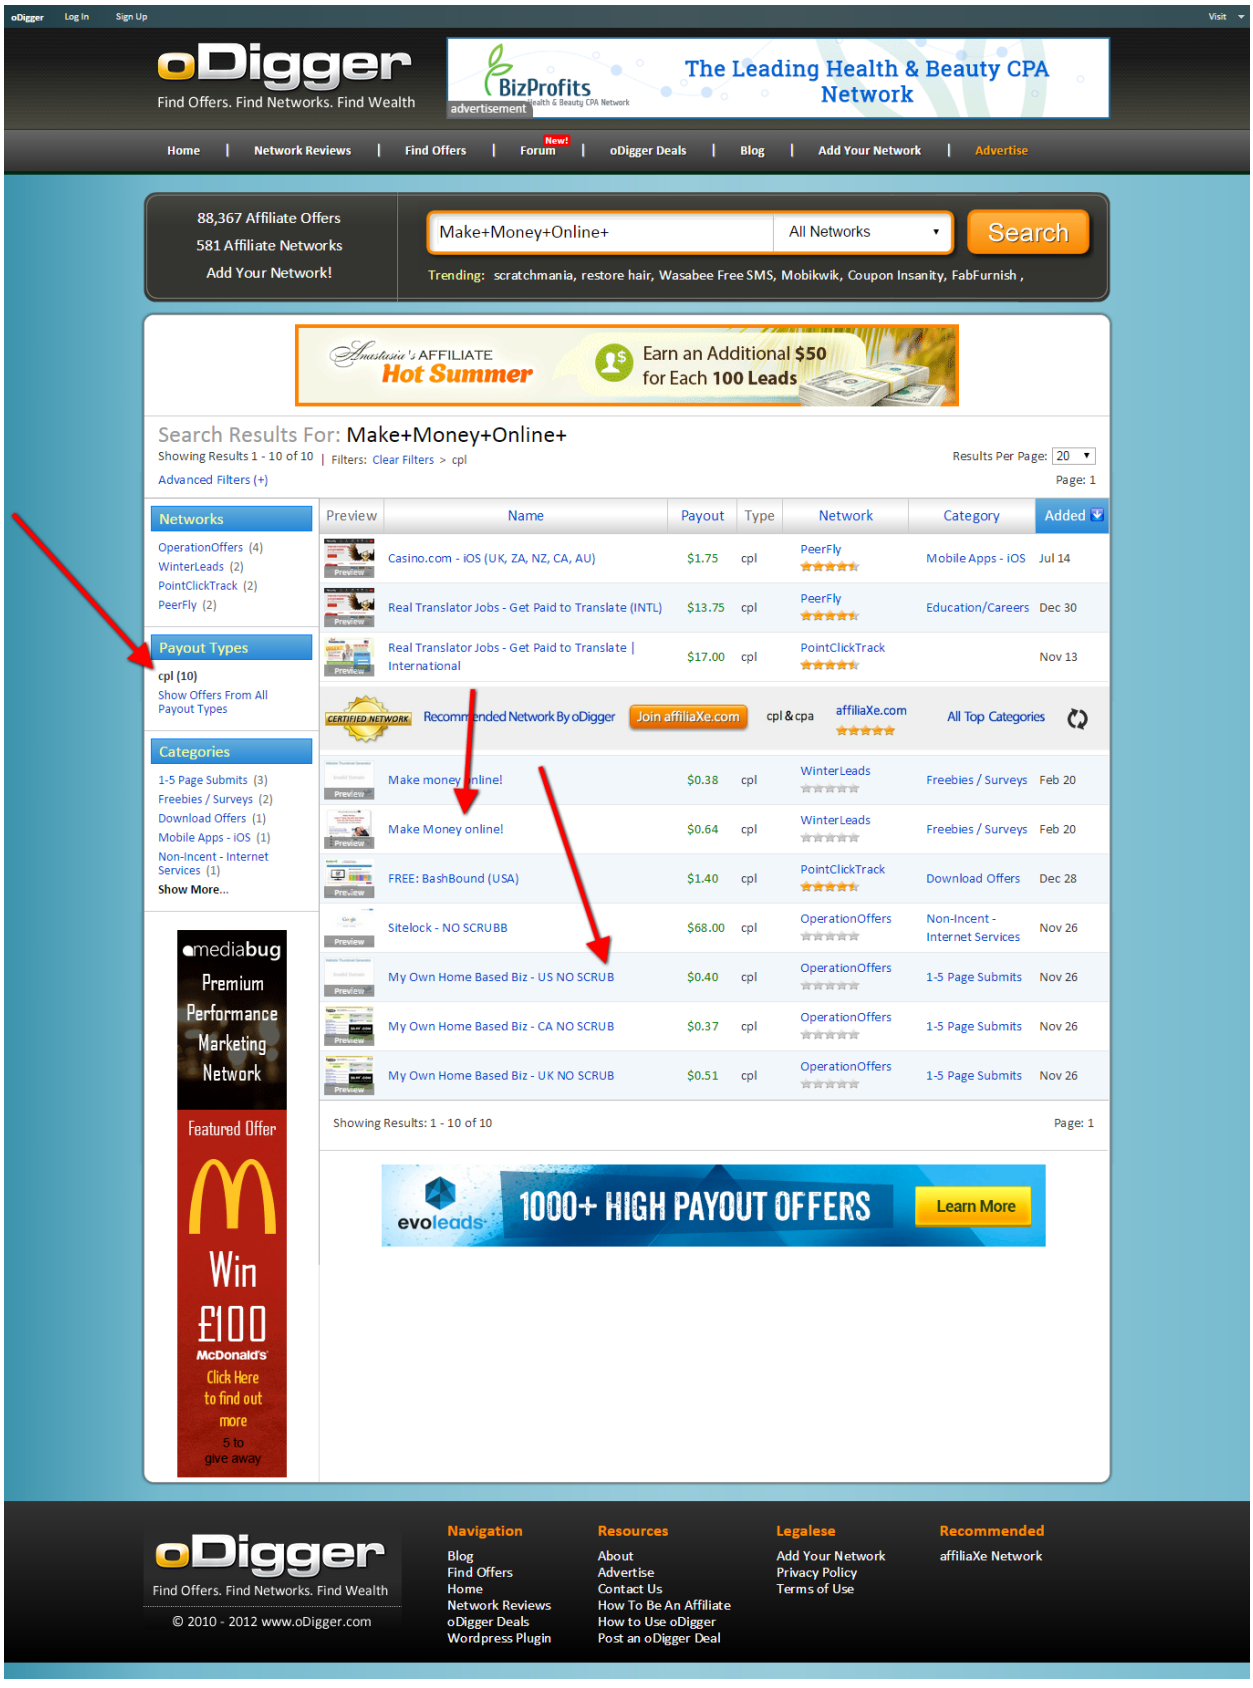

http://odigger.com/

Once you open odigger.com in search bar right the niche you want to promote and then select your network. And hit search.

From Next page select payout type as CPL because we need simple offer who pays us on per lead.

Like the way I have shown you in the image below:

Copyright © Tube CPA Loophole. All Rights Reserved.

Don't get lazy on this step, this might take some time but it's important to find a good offer to make you good commissions. Keep in mind that you need offers with simple yet attractive landing pages. If an offer needs the visitor to submit too many fields then your conversion will be low. Lesser number of fields, higher chances of making an easy conversion.

So you need an offer that just needs visitors name and email.

Keyword Research

Alright keyword research for this method is very very simple you don't need to go through plenty of step. Since, with this method we can easily rank a video for any keyword.

So we need to find high search volume keyword for this method. Don't worry about search competitions. So for example if you're into make money online niche then use "Make money online" as your keyword.

If you're into weight loss niche then "weight loss" should be your main keyword.

The point is you should come up with a keyword which is very high in search volume and high in search competition. Don't worry about search competition you can rank video for any keyword on YouTube that you want.

Module No 4

Video Creation

Since we are working with YouTube so the very first thing which we need is some decent or high quality videos. Don't worry you don't need to be a professional to create simple videos.

Videos Creation:-

Since we are going to upload our video to YouTube, so we need a good quality video for our project. Keep in mind that your video should be of high quality and it should not be too long. You just need 1-2 minutes video and it should force your visitors to click on your CPA offer in the description.

There are couples of methods which you can use to create your videos.

Fiverr

The first and the easiest method is to go to fiverr, hire a freelancer and pay him between $5 to $15 to create a high quality video for you.

Go To Fiverr and in search type video "***voice over'"***

Choose those video creators who will speak in front of camera. Never buy a whiteboard or cartoon character video from fiverr because in my experience the video with a person explaining in front of camera convert higher than a video with cartoon character or whiteboard.

Copyright © Tube CPA Loophole. All Rights Reserved.

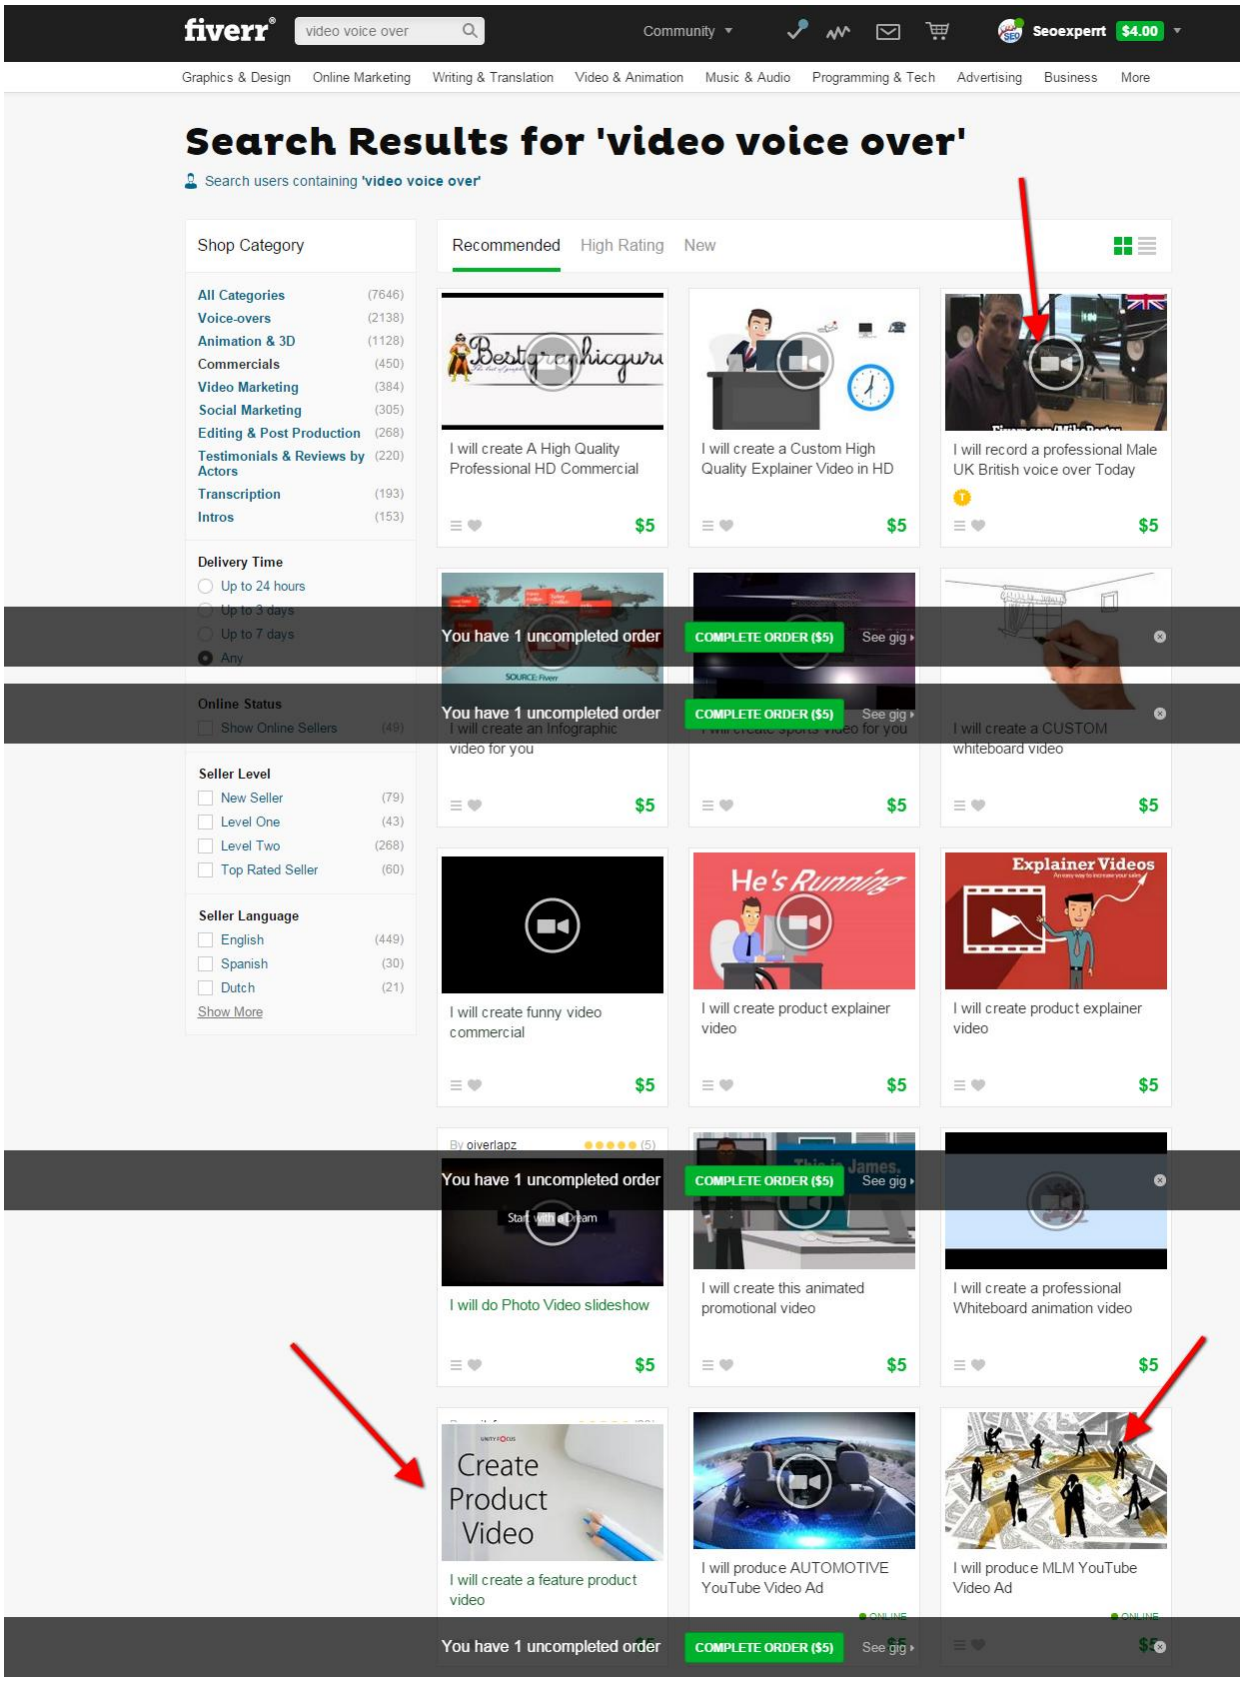

Ask the vendor to create a video for 1 minute; you don't need a very long video for this. Just to the point which forces your audience to go to your CPA offers. Below is the script of one of my video which I created from fiverr.

Hi guys ALI M here..
Once again with some cool tips for work from home moms ..
Thanks for giving me awesome response on my first video :)
I received many emails and messages about how to make quick money online, how to make money online fast because mostly work from home moms have no time to learn and invest. They need some quick cash by completing some easy tasks. listen ! This is not your future ... you can earn a income like 20$ a day 30$ a day but this is not your career

Think about the future... can you really spend your whole life on only 30$ a day? So you have to learn before earn... watch my first video about that but if you need some real quick cash by doing some easy tasks then There is a website link in description that you can join. This site is 100% trusted and pay on time. Some of my friends are making almost 800$ a month by doing some easy tasks like email reading, taking survey online, shop online and playing games online. But this site is only for USA, it doesn't work for other countries. Remember to click the link in description and get started today ... Subscribe my channel for more videos and take care :) see you in next video

I think this video cost me $15. But my point for posting this script here is to give you an idea to create your own video script which will force your audience to visit your CPA offer page.

How to Scale This Traffic Up?

All right guys I have setup and rank entire video right in fornt of you. Now it's your task to start ranking 1 video every day. Now what happen when you rank videos on top of YouTube. And depending on competition, it will stay on first page of YouTube for 24-72 hours. And if competition is low then it stays there for longer period of time.

But your task is to rank videos on those keyword who are high in search volume and tough in ranking like

Make money online

Weight loss

Body building supplements.

Here is a game plan which you should follow

- Make 4 to 5 videos from fiverr
- Create 5 different YouTube channels and upload 1 video on each channel.
- Submit those five videos to qqtube. And get 2000 views for each video.
- Once you get views on all those five videos. Start making 1 video public every day.
- When you have uploaded all the videos and they have lost their rankings, create new channels and repeat the process. Easy.

This will help you to drive continues traffic to your CPA offers.

Copyright © Tube CPA Loophole. All Rights Reserved.

Conclusion

You now have a complete system for making money online from CPA offers. Once you apply this information, you'll have an ***automated profit system*** that will give you consistent income every month.

If you take action right now and start putting this system, you can be driving traffic and making money in the next few days…

I've given you the game plan. Now you just need to follow it and stay focused on your goals. If you can do that, success is guaranteed. The ball is in your court…

Keep an eye out for my emails because I'll be sending you updates and unadvertised bonuses very soon.
