Use This Amazing Wordpress Plugin To Create Extraordinary Full Page Opt Ins, Videos, Surveys & Exit Pages That Get You More Leads & Sales!

[YOUR VIDEO HERE]

Brand new “5 in 1” pop up plugin instantly transforms lifeless WordPress pages into list building, sales making machines

Keep reading to discover why pop ups are still the most powerful tool for getting people to respond to your content and offers, and why a bad pop up plugin could be doing more damage than good!

Now anybody can create powerful pop ups with push button simplicity, including…

- Email opt ins
- Videos & Images
- Surveys
- Countdown timers
- Special offers
- Or mix n’ match your own!

PRODUCT IMAGE & SCREENSHOTS

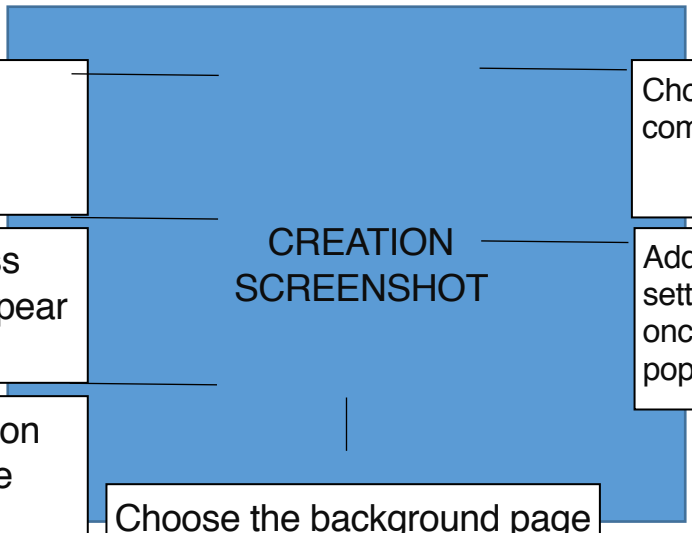

Because the truth is…

Your website is **not** *"just another WordPress blog"* and [PRODUCT NAME] is **not** *"just another pop up plugin"*

[product name] gives you the power to create five different, fully customizable pop ups that can be run on any WordPress page and theme, within seconds.

Step 1: Create a new [PRODUCT NAME] pop up

First up, create your pop up. Enter the basic settings for your pop up before you start customizing it.

Give it a title

Choose which WordPress page your pop up will appear on

Pick a pop up trigger action (choose from clicks, page scrolls, timed or a combination of each to trigger the popup) and pick a pop up animation (choose whether the popup appears as a slide in, fade in or dynamic animation)

Choose a layout (if you're combining in multiple features)

Add your confirm and thankyou settings (what people will see once they've interacted with your pop up)

Choose the background page colour settings

Step 2: Select your pop up style

Once you have defined your general [product name] settings, choose which type of pop up you want to use and then make it your own…

Email Opt Ins

Create beautiful, clean opt in boxes that build your list like crazy. Link your favourite auto responder without any coding.

Video & Images

Insert attention grabbing video or images to drive traffic to your money pages, subscription areas or affiliate offers easier than ever.

Surveys

Quickly add pop up surveys to find out what your visitors truly want from you and your website. No more wasting time creating offers or content that your visitors don't want.

Countdown Timers

Add beautiful, hard to ignore, highly flexible, "smart" countdown timers to create a sense of urgency and boost conversions instantly.

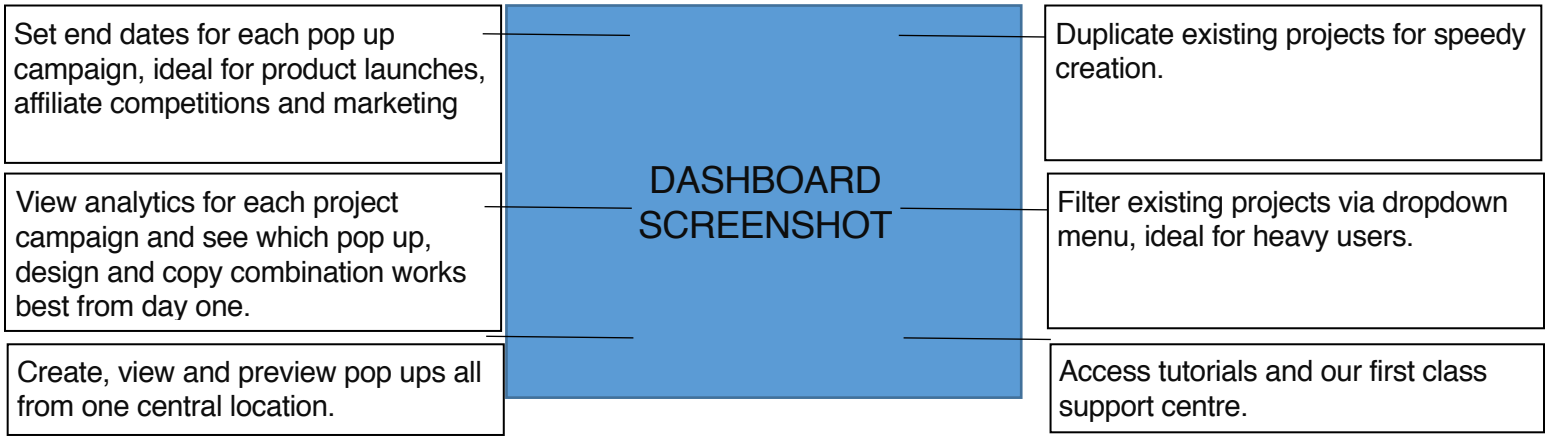

Special Offers

Create clean, clear offer boxes to highlight your product features and benefits and generate clicks to your money pages. Perfect for affiliate blogs, sales websites, or anyone that wants more traffic to their offer pages.

You can even combine multiple features to create your own "power popup"

And once you're up and running…

Your dashboard keeps you in full control

As you can see, [product name] ***is…***

Made for marketers (…not nerds)

» **No coding or design skills or outsourcing required.** Save thousands of dollars and days of waiting on freelancers.

» **Works with any WordPress theme.** Past, current or future, [product name] works on any WordPress theme you're running.

» **Fully customizable to match your theme, logo and brand.** No more ugly, untrustworthy looking pop ups that annoy visitors.

» **Works flawlessly.** Buggy and cheap pop ups can slow your site down, irritate your visitors and have people leaving your website, never to return. [product name] does the opposite.

“But wait, do I really need to use pop ups on my website?”

If you’re tired of people leaving your website without filling out your survey, consuming and sharing your content, subscribing to your newsletter or buying your stuff, then pop ups are the answer.

Because even if your page design and content sucks, the right type of pop up can create a crystal clear call to action that people cannot ignore.

In fact…

Warning: Your biggest competitors want you to think that pop ups are “dead” but they’re lying to you...

Because the truth is, pop ups work and the *real* experts know it…

» Michael Stelzner, founder of one of the top social media blogs, attributes 70% of their email subscriptions to their popup form.

» Visual Web Optimizer, a leading A/B testing tool, saw a 50% increase in signups for their platform when they switched from just having a call to action button on their homepage to having a popup free trial offer.

» *“Between late January and early May of 2011 the popup on my site was temporarily disabled. I found that my signup rate doubled with the popup enabled and there was no noticeable change in bounce rates.”* - Dan Zarella, danzarrella.com

» *“Pop-ups are probably one of the best ways to increase your email subscribers. And fast.”* - Mauro D Andrea, Unbounce.com

The problem is…
most pop up plugins **suck**!

Why settle for ugly, annoying and buggy pop ups that slow down your website and repel your visitors…

(… assuming you’re lucky enough to find a plugin that actually works with your current WordPress theme.)

After all…

“Pages with a well-designed and thoughtfully implemented pop-up convert better than ones with a crappy pop-up. A truly hideous pop-up can drive a large proportion of your audience away, their perception of your brand irrevocably tarnished.” - Rob Carpenter, evergage.com

You deserve *better*…

… and [product name] is the answer.

Try [product name] today and turn your limp WordPress pages into marketing powerhouses within seconds…

[ORDER BUTTON]

With [product name], you can finally…

» **Save time on coding and design.** If you can push a few buttons and slide a few sliders, you're already qualified to create your own pop ups within seconds using [product name].

» **Save money on multiple plugins and scripts.** [product name] is loaded with five awesome pop ups that would cost you bags of cash to buy separately, if you ever find them at all.

» **Enjoy total pop up control.** Customize everything so that your pop ups work exactly how you need them to.

The only thing [product name] can't do is create your offer for you…

Sure, [product name] is probably the most awesome WordPress pop up tool you'll ever find, but it's not magic.

You still need a solid offer or content to use it with. You bring the offers and content and [product name] will make sure people ***see*** it and ***respond*** to it.

Download now and instantly [product name] the odds in your favor
