Installation Instructions

Step 1: Editing Your Report

You will need to open the .doc file you received for your report and edit your name and affiliate links.

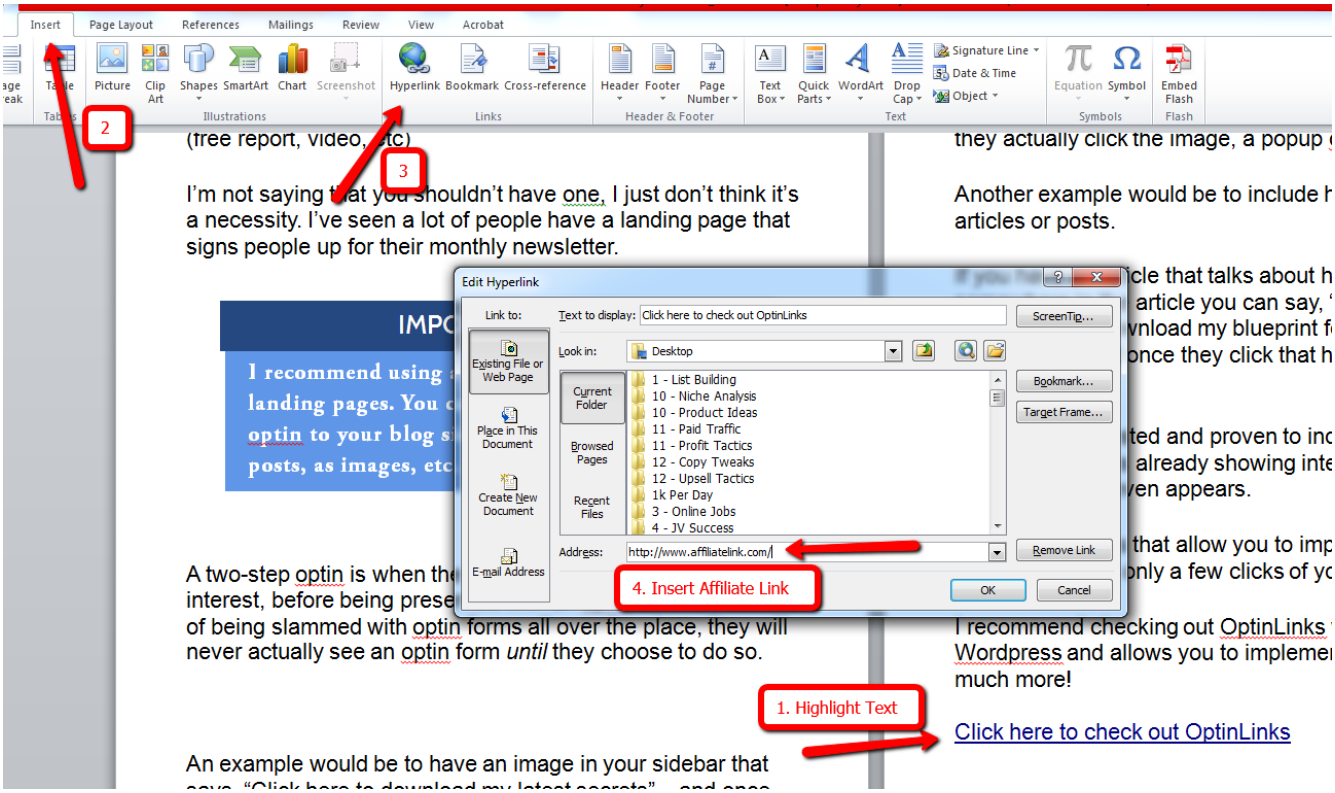

- There are 2 places to edit your name, the very top and the very bottom

Also be sure to remove the last line in the report after you've downloaded your font.

©Copyright 2015 Kevin Strong

- There are 3 affiliate links you need to edit inside of the report. Pages 8, 10 & 14.

After that, just save it as a PDF!

Step 2: Editing Your Squeeze Page

Next you will need to link your autoresponder to the squeeze page.

<u>Aweber Users:</u>

You will need to replace the following information with your autoresponder information:

Web Form ID: Your unique web form ID
List Name: The name of your autoresponder list
OTO URL: The website URL of your pre-thank you page

```
                    </p>

                    <!--Optin form starts here-->

                    <form action="http://www.aweber.com/scripts/addlead.pl" method="post">
                <input type="hidden" value="WEB FORM ID" name="meta_web_form_id">
                <input type="hidden" value="testlist98" name="LIST_NAME">
                <input type="hidden" value="YOUR_AD_TRACKING" name="meta_adtracking">
                <input type="hidden" value="" name="meta_split_id">
                <input type="hidden" value="OTO URL">
: type="hidden" value="OTO URL" name="meta_redirect_onlist">
                <input type="hidden" value="1" name="meta_message">
                <input type="hidden" value="email" name="meta_required">
                <input type="hidden" value="0" name="meta_forward_vars">

                <input type="text" align="middle" id="" onfocus="if (this.value == 'Your email address') {this.value
="Your email address" size="30" style="color: rgb(32, 32, 32); padding: 11px 12px; text-align: center; border-radiu
: 31px; font-size: 17px; margin: 10px auto 14px; width: 95%;">
```

You can find this information side of your aweber account:

<input type="hidden" name="meta_adtracking" value="My_Web_Form_3" />
<input type="hidden" name="meta_message" value="1" />
<input type="hidden" name="meta_required" value="name,email" />
<input type="hidden" name="meta_tooltip" value="" />

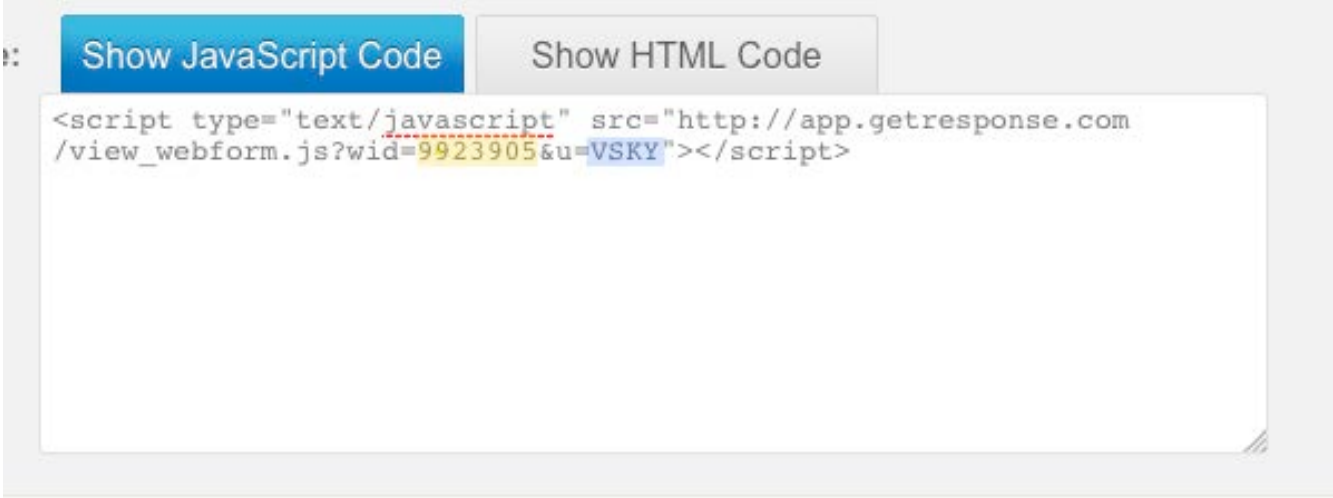

<div class=

<label class="previewLabel" for="awf_field-69745949">Name: </label>
Include beautiful form styles. Uncheck to get unformatted basic form.

GetResponse Users:

You will need to create a new webform for your campaign and then go to SETTINGS> Custom Thank You Page and enter the URL for your pre-thank you page.

After that, click on PUBLISH and you will need your WEB FORM ID & your CODE.

Open up your GetResponse squeeze page in your favorite HTML editor and scroll down until you see the following code:

```
            <div id="WFIfooter" class="wf-footer el" style="height: 20px; display:  block !important;">
                <div class="actTinyMceElBodyContent"></div>
                <em class="clearfix clearer"></em>
            </div>
        </div>
        <input type="hidden" name="webform_id" value="WEB FORM ID" />
    </form>
</div>
<script type="text/javascript" src="http://app.getresponse.com/view_webform.js?wid=WEB FORM ID&mg_param1=1&u=CODE"></script>
                            <!--Optin form ends here-->
```

You will need to copy and paste your web form ID into those 2 spaces where it says “WEB FORM ID” and also paste your code where it says CODE.

Step 3: Editing Your Pre-Thank You & Thank You Pages

Next you need to edit the affiliate links provided on our thank you pages.

On the pre-thank you page, you need to edit your affiliate link and your ‘no thank you’ link.

```
<div class="content">
    <div class="flex_100">
        <div class="flex_10 push"></div>
        <div class="flex_80">
            <div class="post" id="post-">
                <div class="entry">
                <h1 align="center"><span style="font-weight: bold; color: rgb(255, 255, 255);">Must Have Traffic Source! <em>Free Video Below</em></sp
                    <div class="vidbox1"><center><iframe width="789" height="442" src=
be.com/embed/QBTwyGxvqcw?wmode=opaque&showinfo=0&amp;autoplay=1&amp;controls=0&amp;modestbranding=1&amp;vq=hd1080&amp;rel=0" frameborder="0" allowfull
                <a target="_blank" href="AFFILIATE LINK"><div class="download_bttn">Click here to learn more about solo ads!</div></a>
                <p align="center" class="nothanks"><a href="#">No thanks, I'm ok with losing money on solo ads. Take me to my download.</a></p>
                </div>
            </div>
        </div>
    </div>
</div>
```

Replace AFFILIATE LINK with your affiliate link for “Death of Solo Ads”.

Then replace “#” with a link to your download page.

On your thank you page, you need to edit the affiliate link and download link.

©Copyright 2015 Kevin Strong

Replace AFFILIATE LINK with your affiliate link for “Invisible Optin”.

Replace DOWNLOAD LINK with a link to your report. (Be sure to edit your report first!

Step 4: Uploading Your Funnel

After you are finished editing everything, you need to upload the funnel!

I recommend using an FTP program like Filezilla. (It’s free!)

If you aren’t sure how to use FileZilla or any FTP program, I recommend watching this very easy to follow video tutorial:

https://www.youtube.com/watch?v=A-gr0LIWT64

If you would rather have an expert install this funnel for you, please click here and we’ll be glad to help.
